

JOAO MARCOS VENSI BASSO

Last updated: 12/15/2020

EDUCATION

Tufts University, Medford, USA

2016 - 2020

Bachelor of Science, Summa Cum Laude, 3.91/4.0 GPA: Mathematics, Physics and Computer Science triple-major.

High Honors in Thesis: “Coordinate-free Tensor Analysis”.

Graduate courses: Algebra I, Manifolds, Algebraic Topology II, Quantum Theory I & II, Statistical Mechanics, Foundations of Quantum Mechanics.

Activities: Tufts Symphony Orchestra (concertmaster), Tufts Chamber Orchestra (associate concertmaster), Tufts Youth Philharmonic (mentor).

PUBLICATIONS AND PRE-PRINTS

Basso, J., Tu, L. (2020). Basis-free analysis of singular tuples and eigenpairs of tensors, arxiv.org/abs/2012.07313.

Mosca, M., Basso, J., Verschoor, S. (2020). On speeding up factoring with quantum SAT solvers, *Nature Scientific Reports*.

Basso, J. M. V., Yurchenko, I., Wiens, M., Staii, C. (2019). Neuron dynamics on directional surfaces, *Royal Society of Chemistry, Soft Matter*.

Yurchenko, I., Basso, J., Syrotenko, V., Staii, C. (2019). Anomalous diffusion for neuronal growth on surfaces with controlled geometries, *PLoS ONE*.

Basso, J., Ilya, Y., Simon, M., Rizzo, D., Staii, C. (2019). Role of geometrical cues in neuronal growth, *Physical Review E*.

Basso, J., Simon, M., & Staii, C. (2018). Neuronal dynamics on patterned substrates measured by fluorescence microscopy, *MRS Communications*.

PRESENTATIONS

“Neuronal dynamics on patterned substrates measured by fluorescence microscopy”, American Physical Society March Meeting 2019, Boston, MA, USA, Undergraduate session.

RESEARCH AND WORK EXPERIENCE

Google Research, Seattle, WA, USA

August 2020 - present

AI Resident

- AI residency working on quantum algorithms.

Institute for Quantum Computing, Waterloo, ON, Canada

Summer 2020

Research Assistant

- Worked with Prof. Michele Mosca on the quantum derandomization of algorithms and circuit synthesis.

Institute for Quantum Computing, Waterloo, ON, Canada

Summer 2019

Research Assistant

- Worked with Prof. Michele Mosca on three projects: speeding up factoring with quantum SAT solvers, algorithms for lattices in the ℓ_p norm and algorithms for T-gate count.

Boston University, Boston, MA, USA

Summer 2018

Research Assistant

- Worked on the 0,1-PERMANENT to #SAT reduction, tensor networks and relational algebra methods for solving SAT and other topics related to quantum computing, along with Prof. Claudio Chamon and Dr. Stefanos Kourtis.

Staii Research Group, Tufts University, Medford, MA, USA

2017 - 2020

Research Assistant

- I worked with Prof. Staii investigating geometrical and topological properties of neuronal growth on controlled substrates.

Tufts University, Medford, MA, USA

2017 - 2020

Teaching Assistant

- I have been a TA for: **Complex Variables** (Spring '19), **Algorithms** (Summer '18), **Linear Algebra** (Fall '19), **Discrete Mathematics** (Fall '17, Spring '18, Fall '18), **Intro to Physics 1** (Fall '17, Fall '18), **Intro to Physics 2** (Spring '18, Spring '19), **General Physics 11** (Fall '17, Fall '19), **General Physics 12** (Fall '17, Spring '20), **Portuguese** (Spring '17, Fall '17, Spring '18).
- Tasks involved teaching recitations, holding office hours, grading and proctoring.

Tufts CEEO, Medford, MA, USA

Winters 2017 & 2018

Engineering Intern

- Development of a web-based IDE for programming the LEGO Mindstorms EV3 with Python. The IDE was later used by a professor for robotics classes at Tufts.

Escola Yadaa, Sao Carlos, SP, Brazil

2016

Robotics and Programming Teacher

- Taught students 7+ and coached the teams that competed in the Brazilian Robotics Olympiad.

HONORS AND AWARDS

2020 Senior Award: Awarded to six to 12 graduating members of the senior class for academic achievement, participation in campus and community activities, and leadership. (Tufts University Alumni Association, April 2020)

Benjamin G. Brown Scholarship: Awarded to Tufts seniors who have shown promise in scientific research in fields other than chemistry. (Tufts University, April 2020)

Tufts Career Center Internship Grant: Received for my internship at Boston University. (Summer 2018)

Howard Sample Prize Scholarship in Physics: Awarded for outstanding performance in General Physics I and II, calculus-based. (Tufts University, March 2018)

Portuguese Conversation Group Leader: Award of Excellence. (Tufts University, May 2017)

Brazilian Physics Olympiad: 1 Silver ('13), 1 Bronze ('12) and 1 Honorable Mention ('14) medals.

Physics Olympiad of Sao Paulo: 2 Bronze ('14, '10) medals.

Brazilian Astronomy and Astronautics Olympiad: 5 Gold ('08, '10, '12, '14, '15) and 3 Silver ('09, '11, '13) medals.

FIRST LEGO League: 1 Robot Design ('10) and 2 Core Values ('11, '13) trophies.

LANGUAGES

English (fluent); German (intermediate); Portuguese (native).
